TEST RESULT

Please keep a copy of your results.

Print - Take a screenshot - Save as PDF

Patient Information:

First Name: Gano
Last Name: Koroso
Date of Birth: 10/12/1995
Patient ID: 2062947073

Your test kit was **POSITIVE SARS-CoV-2**. SARS-CoV-2 is the virus that causes COVID-19. Please follow the recommendations below.

Specimen Information:

Test Kit ID: B8557757549
Test Performed: Real-Time Reverse Transcription PCR
Sample Source: Saliva
Activation Date: 2023-2-28 14:47:02
Received by Lab: 2023-03-01 09:46:13

Lab Analysis Date: 2023-03-01 13:35

Reported Date: 2023-03-01T20:07:04.421Z

Your Result: **POSITIVE SARS-CoV-2**

Facility Information:

Laboratory: State Hygienic Laboratory
Coralville
University of Iowa
Research Park
2490 Crosspark Rd
Coralville, IA 52241

Laboratory CLIA ID Number
Certification: 16D0648109
Normal Range SARS-CoV-2 Not
Result: Detected

**The Normal Range Result is terminology used by the lab to show how a COVID-19 test result would appear in a healthy or non-infected patient. The result says 'SARS-CoV-2 Not Detected' because that's what would appear for a patient that is not infected with COVID-19. This is not your test result.*

Recommendations

Stay at home: Most people with COVID-19 have mild illness and are able to recover at home without medical care. Do not leave your home, except to get medical care. Do not visit public areas.

Stay in touch with your doctor. Contact your healthcare

provider to better understand your result and address any additional concerns. You should seek medical care immediately if you are experiencing an emergency and share that you have recently been diagnosed with COVID-19. Your healthcare provider can also talk with you about whether therapeutic options are appropriate for you. Finally, don't forget that vaccination is still important for people who have been infected with COVID-19 and is an important way to protect those around you. For more information on vaccines talk with your healthcare provider or visit: [CDC - Your COVID-19 Vaccination](#).

Other recommendations include: Stay at home except to get medical care Separate yourself from other people and animals in your home who are not sick. Wear a facemask. Cover your coughs and sneezes. Clean your hands often. Avoid sharing household items. Clean all "high-touch" surfaces like computer keyboards, phones, wallets, doorknobs, fridge doors, toilet and faucet handles, every day. Monitor your symptoms and seek medical attention if they are worsening.

Please visit the [Centers for Disease Control & Prevention](#) site for more information on what to do if you are sick, including things you can do at home and what to do if you go to the doctor.

Questions

If you are experiencing an emergency or need to talk with a healthcare provider, please seek medical care immediately.

For questions specific to this assessment, please contact the

Test Iowa State Hygienic Lab Call Center at 833-286-8378.

All other questions related to COVID-19 should be directed to your healthcare provider or the Iowa Department of Public Health at 1-800-362-2736.
